Project Planning Phase

Project Planning Template (Product Backlog, Sprint Planning, Stories, Story points)

Product Backlog, Sprint Schedule, and Estimation

Product Backlog, Sprint Schedule, and Estimation

Sprint	Functional Requirement (Epic)	User Story Number	User Story / Task	Story Points	Priority
Sprint-1	UI Policy Creation	USN-1	As a developer, I can create a UI Policy to make specific fields mandatory.	2	High
Sprint-1	UI Policy Testing	USN-3	As a user, I receive validation when mandatory fields not filled.	1	High
Sprint-2	UI Policy Enhancement	USN-4	As a tester, I can verify mandatory fields are enforced correctly.	2	Medium
Sprint-3	UI Policy Fnceive	USN-3	As a developer, I can update UI policies oonifie dback.	2	Medium
Sprint-3	Update Set Creation	USN-5	As a developer, I can capture UI policy changes in an update set.	1	High
Sprint-6	Update Set Migration	USN-6	As a developer, I can migrate update sets from dev& to test environment.	2	High
Sprint-4	Vpdate Set Digration	USN-6	As a developer, I can migrate update sets from dv (to target instance.	2	High
Sprint-4	Validation & Deployment	USN-8	As a user, I can view deployment status and logı logs.	1	Low

🚀 Velocity Calculation

🔷 Sprint-wise Velocity

Sprint	Completed Story Points
Sprint-1	13
Sprint-2 (Expected)	15

✅ Average Velocity

$$\text{Velocity} = \frac{13 + 15}{2} = 14 \text{ story points per sprint}$$

📉 **Burndown Chart (Text Representation)**

🔷 **Total Story Points: 28**

Day	Remaining Work (Story Points)
Day 1	28
Day 2	24
Day 3	20
Day 4	15
Day 5	10
Day 6	5
Day 7	0

🔷 **Burndown Interpretation**

- Work is gradually decreasing
- Indicates healthy sprint progress
- Final goal: reach 0 remaining work by sprint end

📊 **Key Insights**

✅ **Project Tracking**

- **Clear visibility of tasks and ownership**
- **Helps monitor progress across sprints**

✅ **Velocity**

- **Predictable delivery capacity (~14 points/sprint)**
- **Helps in sprint planning**

✅ **Burndown**

- **Tracks daily progress**
- **Identifies delays early**

🎯 **Final Outcome**

- **Efficient implementation of UI Policies**
- **Smooth migration using Update Sets**
- **Predictable and well-managed Agile delivery**
